## **OBJECTIVE**

To be hired as a full stack web developer. I have completed a rigorous Full Stack Web Development Bootcamp which has helped me to prepare for a position in the tech industry.

## **EDUCATION**

### **University of Connecticut**

Stamford, CT

- Bachelor of Arts in Political Science
- Certification: School of Engineering Coding Bootcamp

## **EXPERIENCE WITH**

- HTML
- CSS – BOOTSTRAP & FOUNDATION\_6
- JAVASCRIPT
- NODE
- GIT & GITHUB
- JQUERY
- MYSQL
- MONGO DB
- REACT

## **PROJECTS**

### **BOOK HUNT**

Designed with avid readers in mind, this website provides the user with a number of choices to help them find the prefect book from the comfort of their home.

(HTML, CSS, FOUNDATION 6, JAVASCRIPT, JQUERY)

- <https://srad25.github.io/Book-Hunt>

### **GAME QUIZ**

An interactive quiz. The user will get ten seconds added to their time with each correct answer, but if their answer is incorrect, they will get ten seconds

subtracted from their score. The user will have the option of storing their score at the end of the quiz.

*(HTML, CSS, BOOTSTRAP, JAVASCRIPT)*

- <https://srad25.github.io/Quiz-Game>

### **WEATHER DASHBOARD**

This application allows the user to view the current weather in any named city. The application will also display the next five days forecast so that the user can know the upcoming weather in that area and plan accordingly. Previous searches are easily accessed from the search bar.

*(HTML, CSS, BOOTSTRAP, JAVASCRIPT)*
